

Adaptive Leadership Tools and Tactics Workshop

Karen Ferris

Leadership for change demands inspiration and perspiration.

This workshop presents tools and tactics to lead, to inspire others, and to mobilize people to tackle tough problems whilst reaching high.

This workshop augments the Adaptive Leadership Principles Workshop

The need

Adaptive leadership is a critical skillset for anyone looking to drive systemic change in an increasingly complex world.

This is a world which poses challenges that cannot be addressed through expertise and existing procedures. These challenges are wide-spread and have no ready answers.

Adaptive change is uncomfortable; it challenges our most deeply held beliefs and suggests that deeply held values are losing relevance, bringing to the surface legitimate but competing perspectives or loyalties.

This means that adaptive challenges require a different form of leadership behaviour: beyond providing answers and mistaking leadership for technical expertise.

Adaptive leaders break through obstacles, continuously learn, adapt and develop new capabilities to thrive in complex, competitive and challenging environments where there are no easy answers.

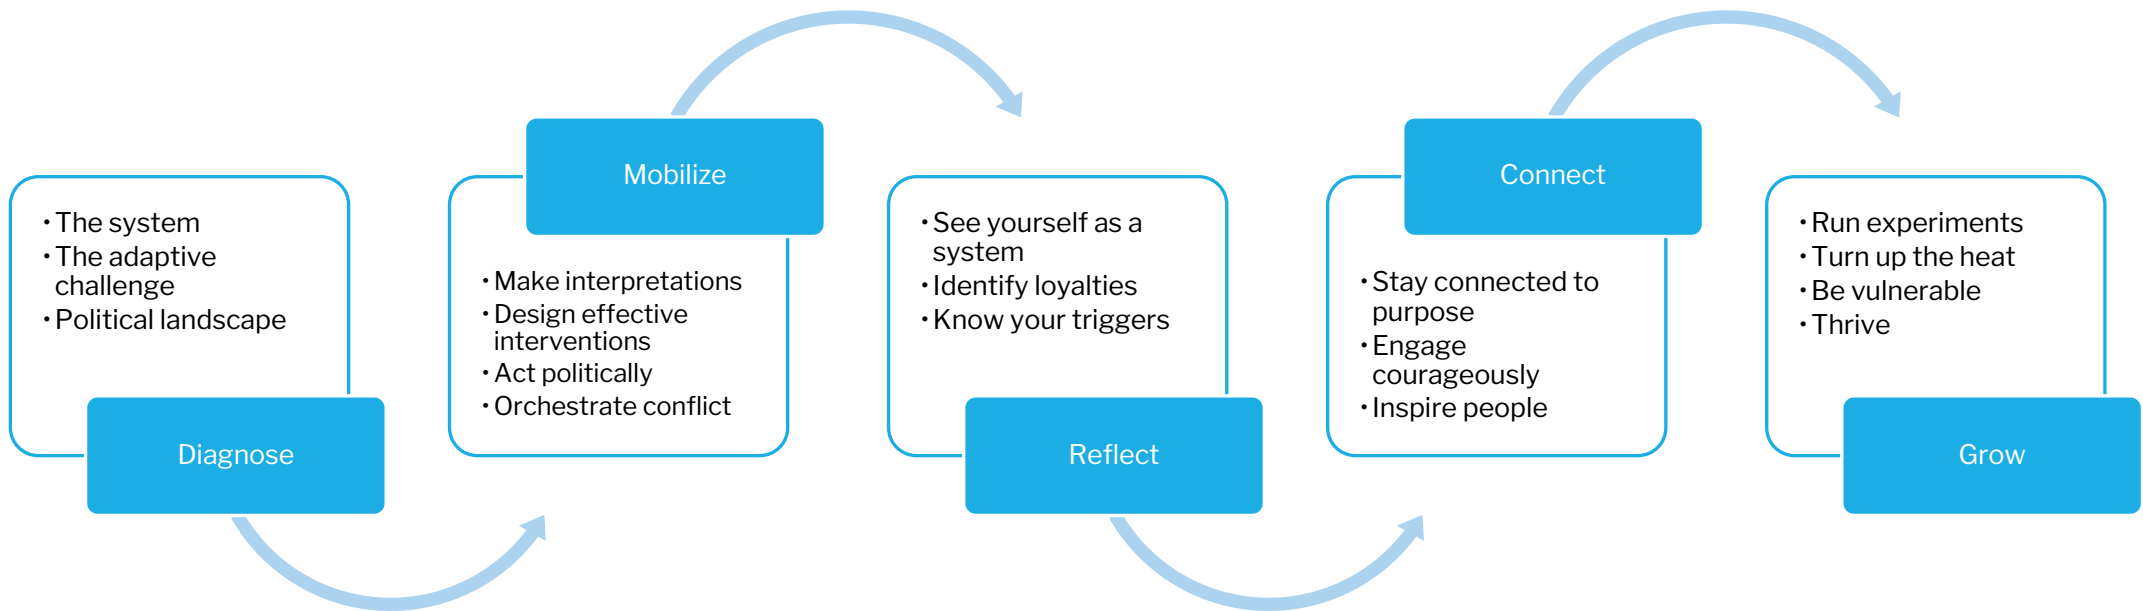

The purpose

The purpose of this workshop is to increase each individual's capacity to lead with and without authority, across boundaries, and from any political or organizational position.

Participants will engage in a learn-by-doing approach to explore scenarios and apply techniques to envision and design the future, while experiencing new ways of thinking and working in teams.

This unique workshop is designed to help leaders (at every level of the organization) drive organizational change and create the learning organizations of the future.

The content

The delivery

The workshop is facilitated by Karen Ferris. Karen is an experienced facilitator and trainer. Acclaimed internationally as an author and speaker, with industry acknowledgement of her reputation as a Thought Leader, she provides both strategic and practical advice and insights to her audiences.

The workshop is interactive containing activities that consolidate learnings.

The duration

The workshop is 1-day in duration and can be run in-house at your facilities.

The workshop can also be broken into modules and delivered virtually in a format that suits your needs.
